During the Friday Night Social On Jan. 6th, our tour guide, Bryan Harvey '60 C, took us up to the original Student Lounge.

Ah, 4 years at the U of S College of Agriculture. All the memories that flooded back....

*The Beaver boys.*

If you did not grow a beard for Ag Bag Drag Week we painted one on you with permanent markers!

*Bertha Badbreath goes visiting.*

It was here that Bertha Badbreath (aka Spiers) launched 'her' bid to become the Engineering Queen!

The many battles involving fire hoses and engineers coming up those polished black granite stairs !! We relished the day we stole the Engineers' cannon, then welding on a cover plate before returning it!

That post to which we lassoed, pantsed, and soaked individuals with water...

... for not registering or donating blood yet (We won the trophy for 110% participation!)
